

# PROJECT COMPLETION

Planning .....	3
Research for project ideas .....	3
Decide a system for development .....	3
Identify the scope of the project .....	3
Feasibility study .....	3
System analysis .....	3

Gathering requirements .....	3
Creating Use case diagram .....	3
Component diagram .....	3
Activity diagrams.....	3
Project proposal .....	3
Project presentation .....	3
SRS Documentation .....	3
<b>System design .....</b>	<b>3</b>
UI Design.....	3
Database Design.....	3
<b>System Development.....</b>	<b>3</b>
Front End development.....	3
Back end development.....	3
Documentation .....	3
<b>System testing.....</b>	<b>3</b>
Unit testing.....	3
Integrated Testing.....	3
System Testing .....	3
Acceptance Testing.....	4
<b>System deployment .....</b>	<b>4</b>

## **I. Planning**

- A. Research for project ideas**
- B. Decide a system for development**
- C. Identify the scope of the project**
- D. Feasibility study**

## **II. System analysis**

- A. Gathering requirements**
- B. Creating Use case diagram**
- C. Component diagram**
- D. Activity diagrams**
- E. Project proposal**
- F. Project presentation**
- G. SRS Documentation**

## **III. System design**

- A. UI Design**
- B. Database Design**

## **IV. System Development**

- A. Front End development**
- B. Back end development**
- C. Documentation**

## **V. System testing**

- A. Unit testing**
- B. Integrated Testing**
- C. System Testing**

## **D. Acceptance Testing**

## **VI. System deployment**
